

St. George Home-School Community Learning Center

Growing in Wisdom Together

Christ is Risen! Truly He is Risen! Opening Fall 2021!

We are excited to provide a nurturing Orthodox Christian Classical & Montessori based education, in a dual learning environment that operates in and outside the home. The program will offer affordable and specialized tutoring services for children ages 4-12, in small mixed-age learning groups. Children will be given the opportunity to excel at their own pace, while tutors work with the strengths of each child on an individual basis and help identify areas of need. Parents will be the primary educators of their children, with the learning center as a partner in this endeavor. The focus will be on a "living" education and the formation of the individual person through relationship and exposure to what is good, beautiful and true.

Mon & Fri

Methods & Curriculum

Our curriculum will primarily follow the classical model, the heart of which is great works of literature, art, history and science. Through these works children and their families are invited to encounter the great ideas and events of history together. Montessori education engages the child in a holistic way, through academic and sensory-based activities that encourage thoughtfulness, independence, and love of learning. This lays the foundation for learning in the classical model, which places high emphasis on these qualities. Ultimately, we aim to support families in the education of their children, and also to inspire strong relationships and love of learning amongst everyone involved.

Job Openings

We are currently seeking tutors for our new educational youth ministry. As a community learning center, our program will combine home-centered learning with tutoring services, grounded in the life of the Orthodox Church. We are looking for tutors who love Christ and have a desire to help families educate their children in an Orthodox learning environment. Previous experience with classical and Montessori-style education is preferred. Tutors will be onsite three days per week as well as offer flexible office hours to assist students and families.

WHAT IS AN ORTHODOX CHRISTIAN CLASSICAL EDUCATION?

"Classical Education" refers to the manner of educating children according to the Classical model. The Classical model, time-tested since ancient Greek, Roman, and medieval times, known as the Trivium, meaning, "triple-way." The Classical model recognizes three stages of mental/physiological development in children with corresponding stages of learning - Grammar, Dialectic & Rhetoric. These stages closely parallel the three levels of spiritual development: purification, enlightenment, and unity with God. The goal of an Orthodox Christian classical education is to produce students able to live out and give strong witness to the True Faith as adults.
